

We'd like to come and tell you what it's like to have aphasia....

Our **Aphasia Ambassadors**, led by people with aphasia and supported by volunteers, would love the chance to talk to your group.

Aphasia is a communication disability caused by stroke or other brain injury and there are over 300,000 people in the UK who live with this condition.

People with aphasia have difficulty speaking, reading, writing and understanding what is said and this can cause intense frustration and isolation.

Dyscover is a charity providing long-term support and opportunities to people with aphasia and their families.

We hope that by increasing awareness and understanding of aphasia, we might make life easier for people with this disability.

We can tailor our presentation to fit your needs so contact us at info@dyscover.org.uk or on **01737 819419**. Thank you.

Nine out of ten people have never heard of aphasia

250,000 people in the UK live with aphasia

One in every three strokes result in aphasia
