specialist aphasia support

OUTREACH SERVICES for people with **APHASIA**

Conversation Partners

Six-session course for couples where one member has aphasia. Led by two Speech and Language Therapists.

iPad Course

Five-session course led by a Speech and Language Therapist, supporting people with aphasia to access their iPad using a person-centred approach.

Learning to live with Aphasia

Weekly sessions run over one year for people coming to terms with aphasia, adapting to life after initial rehabilitation. Led by a Speech and Language Therapist focusing on functional communication strategies.

Primary Progressive Aphasia (PPA)

Our specialist Speech and Language Therapists offer a programme of courses and on-going support sessions for couples living with this condition.

OUTREACH SERVICES for ORGANISATIONS

Training – Understanding Aphasia & Working in Groups

For health professionals and social care staff and volunteers working with stroke and aphasia.

Awareness Raising

Our Aphasia Ambassadors can provide effective and inspirational talks to raise awareness and understanding of the condition.

Consultancy

Established in 1994, Dyscover is a respected third-sector provider of specialist support for people with aphasia.

We are a registered charity and our services are led by Speech and Language Therapists and are shaped by

people with aphasia. Our primary objective is to share our skills and knowledge to benefit people with aphasia, and those who live and work with them. We do this through a programme of services run from our Surrey and South London bases.

Our menu of options is not exhaustive and we are always innovating.

We can work with you to supplement your existing support to people with aphasia, or enhance staff, volunteer or carer knowledge and skills to benefit people with aphasia and their families. We have a variety of funding options available upon request.
